

Magnetic Particle Inspection Equipment

Customized MPI System

MPI System for Crankshaft

- Current Amps. : Transversal: Up to 6,000A ; Longitudinal : Up to 24,000AT
- Magnetization Type : Multi-directional Magnetization ; Current Type : AC

• Auto MPI for wheel axle

• MPI for steel billet

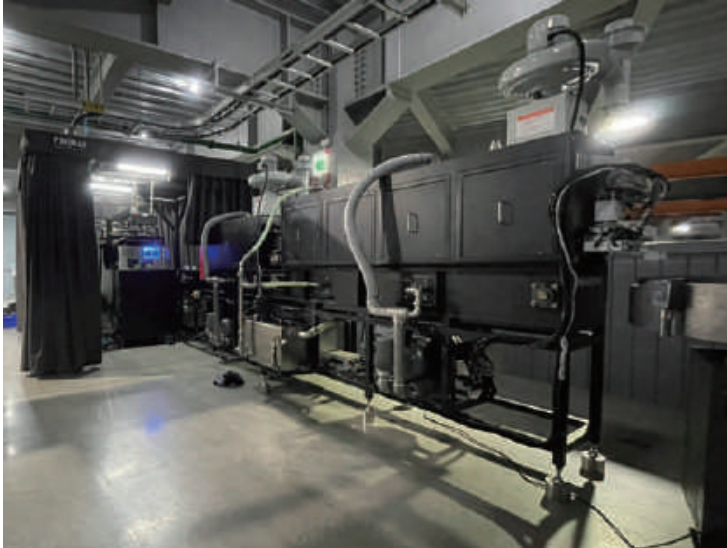

• Conveyor MPI for large-volume inspection

Magnetic Particle Inspection Equipment

MPI System for CV-Joint

- Current Amps. : Transversal: Up to 3,000A ; Longitudinal : Up to 12,000AT
- Magnetization Type : Multi-directional Magnetization ; Current Type : AC

MPI System for Gear Shaft

- Current Amps. : Transversal: Up to 3,000A ; Longitudinal: Up to 12,000AT ; Current Type : AC
- Clamp Distance : Up to 800MM ; Multi-Directional Magnetization
